
WOMEN IN TECH:

Seeing Herself There

Join us for the fifth annual Women in Technology event in downtown Portsmouth!

This year's theme - "Seeing Herself There" - represents the importance of role models and mentors to young women entering STEM fields. Without examples to look toward, it becomes difficult for women to see themselves in the roles they aspire to.

We are thrilled to welcome Gaynelle Swann as our keynote speaker. A lifetime STEM/STEAM and Diversity Advocate, Gaynelle has a compelling story to share. We can't wait for you to meet her.
